13 MP Rear Camera

Our tablet features a 13 MP rear camera, ideal for capturing photos and videos with excellent clarity and detail, always ready to preserve your most important moments.

Lightweight and Easy to Handle

Its 10.1-inch design combines a large display with a lightweight, well-balanced format, ensuring comfortable use both on the move and in work or study environments.

High-Definition Playback

Our tablet supports high-definition playback, delivering a sharp and immersive viewing experience for videos, games and multimedia content in excellent quality.
